

Enterid™

- Supports optimal gut health and integrity
- Supports a balanced gut microbiome
- Risk management tool to maintain producers' nutritional programs around intestinal challenges

Nutritional programs are designed to optimize animal performance and production efficiency. Inclusion of functional ingredients, such as prebiotics, probiotics, plant extracts, and specialty flavorings, are typically directed at supporting optimal gut integrity. Strategies that combine these tools are often needed to ensure success. High gut integrity contributes to optimized endogenous secretions which supports digestion and nutrient absorption. High gut integrity also requires less energy expenditure for maintenance therefore, more nutrients are available for production parameters.

Enterid™ helps post-weaned pigs by addressing intestinal challenges.

The multiple components in Enterid™ support optimal microbial population to support the pig's developing gut environment and immune system.

ENTERID™ DELIVERS THE FOLLOWING MODES OF ACTION

- Captures bacteria to support optimal gut microbial profile
- Helps contain bacteria to support optimal environmental microbial populations
- Supports optimal gut health during intestinal challenges

The multiple components in Enterid™ work together in the gut to support the young pig's immunity. These ingredients interact to help maintain optimal gut integrity during intestinal challenges.

RECOMMENDED INCLUSION LEVEL

COMPLETE FEED FOR	INCLUSION LEVEL
Early Starter	Mix at rate of 2 to 3 lbs. per ton
Late Starter	Mix at rate of 1 to 2 lbs. per ton
Grow/Finish	Mix at rate of 1 lb. per ton
Sow	Mix at rate of 1 to 2 lbs. per ton

PRODUCTS AVAILABLE IN THE USA FROM: Bags, net weight 50 pounds Code:
Nutra Blend C22423AO E1 2728590, Available from: Nutra Blend, LLC, Neosho, MO 64850 / 800-657-5657
Nutra Blend West: Madera, CA 93637 / 503-982-9545 • Hubbard, OR 97032 / 559-661-6161
Nutra Blend East: North Troy, VT 05859 / 800-945-4474
